

Course 106R P6 - Planner/Scheduler Advanced Course-R (2 Days)

This two-day course provides in-depth resource management training in Primavera's client/server-based solution. Building off skills learned in the basic course (102), the 106-R course covers advanced topics in managing resource allocation, future-period bucket planning and resource leveling. Extended workshops at the end of each day provide an opportunity to apply new skills and functionality.

Targeted role: Resource Managers, Program Managers, Project Managers

Additional audiences: Existing project management module users. Existing P3e/c, Enterprise, and TeamPlay users.

Prerequisite: Course 102

Note: The project data used in the course is more Construction focused.
